Meet on time with automated & touchless visitor check-in

Visitors are given unique visitor number and QR code along with the invitation. Visitors can use the code and check-in to the campus and meet their partners.

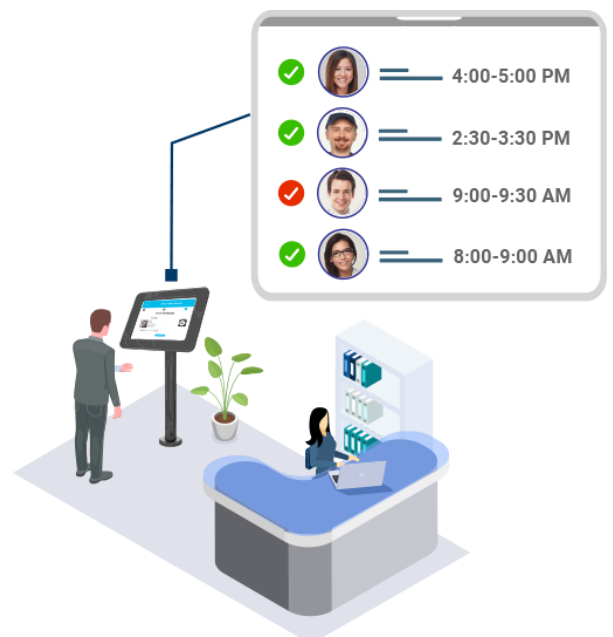

Multiple visitor check-in

You can always check-in with your colleagues. When there is colleagues accompanying you to visit always enter details and take selfies to print badges from the reception panel.

Ensuring safety inside the campus premises

Be aware who is visiting day by day. Export report of visitor check-in and check-out and know the peak visiting time to ensure safety around campus.
