3

Create neighbourhood

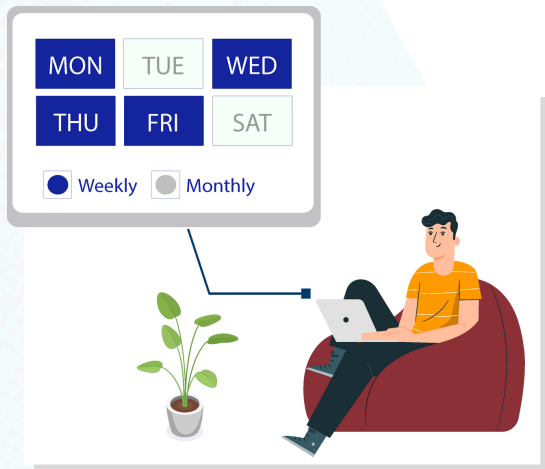

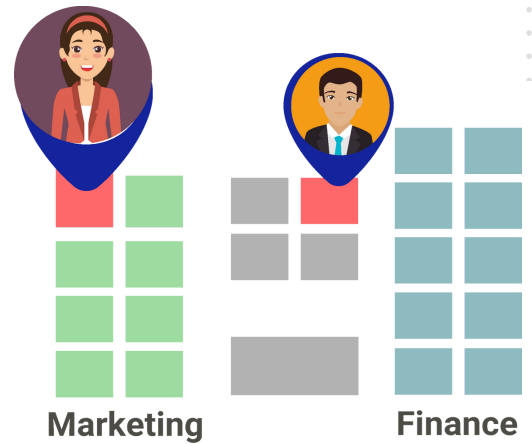

Physical distance Planning

Physical distance planning ensure safety among teams by restricting user check-in

Neighbourhood & Space policies

Reserve spaces in advance for teams and guests and restrict from other users

Plan hybrid working

Plan ahead and schedule space in advance for daily, weekly and monthly recurring manner.

Peak space Utilization hours

Employee peak working hours on floors, buildings and campus are reported on daily basis

Manage absence & Reallocations

Booked spaces are abandoned anytime after booking and become unavailable for other users. Our system retrieve abandoned spaces and reallocate them to users in need

Benjamin (Manager)

Ariana (Manager)

Manager or department based Scheduling & allocation

Spaces can be scheduled for specific employees under a manager or a department. Manager and department wise space scheduling is convenient for allocating space for employees weekly/monthly.

Schedules that works best for you

Neighbourhood and team spaces are booked in advance for any day. Booking is flexible in nature where alternate days can be selected for convenient time slots.
